

COURSE COMPLETION FORMULA

For owners that want to commit to make this happen now!

If your goal is to build a high converting lead generator for your vacation rental business, you've got to complete the course to make it happen! We'll be cheering you along each step of the way.

To help you get started the right way, we've compiled the "5 Course Completion Formula." These are the tips we know will help you reach the finishing line. Simple pointers about time management, reaching out to fellow course students and getting prepared in advance.

#1 SCHEDULE IT. MAKE IT REAL!

Put aside an hour a day (or several hours in chunks throughout the week) to go through the course; digest the videos and work on your website. Decide how much time daily or weekly you want to give the course and add it to your calendar. With an alarm! Now is the time to make yourself, your vacation rental, and this course a priority. You'll be thankful you did! (If you don't schedule the time in advance, it likely will never happen.)

#2 GET ENGAGED IN THE COMMUNITY

Starting the minute you sign up to Build A Free Vacation Website, you'll have access to our Facebook community. Please don't be embarrassed to delve in and ask questions. Everyone here is on the same journey. Some of our owners have even taught us a thing or two!

Get engaged: share your wins and challenges. It makes the course so much more enjoyable when you know you're not alone and can share the experience.

COURSE COMPLETION FORMULA

For owners that want to commit to make this happen now!

#3 BE PREPARED - CHECK OUT THE CHECKLIST!

The key to completing this course is in the preparation. You can do it in a few hours, a few days, or a few years if you don't stay on top and.... Prepare! That's why we've created the prep-it checklist, so you can collate all of the materials and content you're going to need before you start. Then sail through the videos with everything to hand!

#4 DON'T RUSH

If you can put aside dedicated time to this course and the build of your website, you can create your vacation rental website in under a day. But please remember, this isn't a race. You are not competing against anyone. Go at your own pace! You have LIFETIME access to the course and all the videos and materials available to you. The course is designed so that you can take immediate action, and create your enquiry generating website quickly, but... you need to treat this course as your own unique learning experience (and have some fun while you're at it!).

#5 COMMIT TO TAKING ACTION EVERY WEEK

The formula to creating a successful vacation rental business is by taking action regularly. Nothing is more motivating than getting a piece of the puzzle accomplished. Especially when it produces results! Building a website may be new to you, but don't let that stop you from taking action on what you're learning. Celebrating each action along the way. You've got this! In as little as 3 hours, you could see amazing results... IF you commit to taking action.
